The prices reflect the number of pages and include Airmail postage.

I cannot accept VISA or Australian cheques, but in order to avoid Bank exchange rates I am prepared to accept Australian bank notes to the values indicated, as I'm bound to be over that way again, sometime.

Owners requesting copies of booklets are requested to include engine number and letters, frame number, and if possible gearbox number, of their machines and spares in order to further assist with my researches into Triumphs production of the individual models. (All info. kept in the strictest confidence.)

More booklets are being produced; each covering a different Triumph model, group of models, or a period of Triumph's history.

Each print run is limited in order to keep costs down and depending upon demand there could possibly be a short delay in sending.

Next release:
